

JOB POSTING

EcoConsulting (UK) Ltd.

Sustainable Construction Engineer / Consultant Full-time Job Opportunity

EcoConsulting (UK) Ltd is a small, dynamic, eco-building consultancy providing services to the professional construction industry. We currently require a sustainable construction engineer / consultant, based in our London office.

The position holder will have responsibility for the following:

- Conducts BREEAM Offices, BREEAM Bespoke, BREEAM Industrial, BREEAM International, and Code for Sustainable Homes sustainability assessments and produces associated eco-building consulting services and reports
- Conducts Part L energy assessments, Energy Performance Certificates (EPCs), simulations, and advice for domestic and non-domestic buildings; Standard Assessment Procedure (SAP/NHER) and Thermal Analysis Software (TAS)
- Undertake Renewable Energy analysis and calculations to size systems depending on project requirements
- Maintains regular and good contact with clients, and follow-up existing clients
- Attends client meetings for the projects he/she is responsible for
- Answers phone, mail, and email client queries promptly and on a regular basis
- Coordinates with the EcoConsulting team and manages less experienced consultants
- Actively updates data knowledge database with current eco-building articles, publications, and products
- Conducts minor administrative, filing, and archiving duties

Candidates must have:

- Excellent spoken and written English
- An engineering degree or a sustainable construction degree
- LCEA Accreditation (TAS, Level 5 EPC)
- Formal BREEAM and/or Code for Sustainable Homes Accreditations
- Solid experience in BREEAM and TAS

The ideal candidate will also have:

- High capacity to learn quickly and capable of working autonomously
- Ability to follow instructions and guidelines accurately and willingly
- A dynamic, positive, and pro-active work attitude
- Excellent analytical, communication, and organizational skills
- Experience or knowledge of some or all of the following: sustainable development; construction; eco-building; environmentally-friendly materials; renewable energies

[breeam:bespoke](#) [breeam:ecohomes](#) [breeam:schools](#) [breeam:offices](#) [breeam:industrial](#)

This full-time job opportunity will be remunerated at £24,000 - £32,000, depending on the level of experience and qualifications, and an end of year bonus could be expected based on the achieved performance.

Please send the following to Mr. Nanik M. Daswani at cv@ecoconsulting.net ASAP and prior to the closing date 15/03/11:

- 1) A copy of your resume, no more than two A4 pages
- 2) **A covering letter of no more than 300 words detailing why you are interested in eco-building and what experience/knowledge you have of the sector**
- 3) University transcripts with grades (preferably official, but unofficial accepted)
- 4) Two references (from previous jobs and/or professors)

Incomplete applications will not be considered unless a valid explanation is provided.

EcoConsulting is an Equal Opportunities Employer; our policy document is readily provided upon request.
